EXPERIENCE

Onward Search- HitTrax | FROM AUG 2025 – NOV 2025

Contract Technical Artist | Unity, Optimization, C# Scripting, Rigging, Pipelines

- Developed modular animation system using Animancer and GPU-instanced crowds with ECS architecture
- Optimized URP graphics performance with custom PBR shaders, dynamic lighting, and lightmap baking
- Established rigging workflows and Maya-to-Unity pipeline integration with Animation team
- Created optimized game assets with texture compression workflows and material setup for Unity
- Profiled and optimized performance using Unity Profiler to maintain target frame rates

Mindshow | FROM MAY 2023 – MAY 2025

Senior Technical Artist | Unity, Pipelines, Lighting, Shaders, Editor Tools

- Bridge between art and engineering teams, enhanced visual fidelity while maintaining performance
- Led real-time lighting for high-profile client projects using URP and HDRP rendering pipelines
- Developed custom PBR shader with Keywords for pipeline automation from Autodesk Maya
- Implemented feature requests including physics systems and ray tracing capabilities
- Optimized asset import processes through documentation, scripts, and editor tools

EGym | FROM OCT 2016 – FEB 2024

Contract Technical Artist | UE5, Project Ownership, Pipeline, Rigging, Asset Management

- Managed complete project lifecycle. Directed visual design from concept to delivery
- Developed UE5 pipeline for Rigging/ Anim Blueprints, Sequencer and Control Rig for exercise cinematics
- Developed automation blueprints for Movie Render Queue and streamlined rendering workflows

FabuLingua | FROM NOV 2021 – OCT 2022

Technical Artist | Unity, Team Leadership, Rigging, Pipeline, C# Scripting

- Led Technical Art team, managing task assignment and mentoring artists
- Optimized pipelines using Spine2D Rigging, URP, and custom shaders
- Collaborated with Product team on UI improvements for language learning platform

Earlier Roles | 2014 – 2021

Technical Artist | Unity, Unreal, C#/C++, VR/AR, Rigging, Procedural Generation

- **Virbela** (Full-time, 2021) - Unity tools/workflows and asset organization
- **Toptal** (Contract, 2020-2021)- Developed VR UI interfaces in Unity/Unreal and game asset optimization
- **Lenovo** (Contract, 2020) - Implemented environment assets and UI Interfaces for PicoVR
- **Shield AI** (Full-time, 2018-2019)- Integrated assets and tools into Shield AI's UE4 simulation system
- **Grover Gaming** (Full-time, 2014-2017)- Developed and Integrated UI/UX and 2D/3D content for Unity
